Decision-making body/chamber:

Judges of the Düsseldorf Local Court Co-Judges:

This order was issued by the presiding judge Thomas as rapporteur.

LANGUAGE OF PROCEDURE: German

SUBJECT: R. 9 VerfO - Workflow in the CMS

ARRANGEMENT:

1. The CMS provides for a separate workflow for the submission of a request for examination in accordance with R. 212.3 VerfO. In order to ensure that the procedure runs as smoothly as possible and, above all, to ensure that the CMS provides all the steps required in the further course of the procedure, the respondents are requested to upload their requests for examination previously submitted under file numbers App_3127/2024 and App_3259/2024 once again using the aforementioned workflow.

Deadline: 31 January 2024

2. The defendants are given the opportunity to limit the repeated upload to the pleadings and to refrain from repeatedly uploading all attachments. If they make use of this option, all parties to the proceedings can continue to access these annexes under the aforementioned file numbers. These annexes therefore continue to form part of the proceedings.
3. The re-upload is purely for technical reasons and does not affect the time of receipt of the pleadings.
4. The applicant is instructed to file her replies to the requests for examination already in the newly created workflows. To ensure that the previous workflows can be closed, the applicant is also instructed to click the "Do not comment" button so that these workflows can then be closed by a technical arrangement.
