PATENT AT ISSUE:

European patent no EP 4 184 443 B1

PANEL/DIVISION:

Panel of the Local Division Mannheim

DECIDING JUDGE:

This order has been issued by judge Daniel Severinsson acting as judge-rapporteur

LANGUAGE OF THE PROCEEDINGS:

English

SUBJECT OF THE PROCEEDINGS:

Patent infringement action – provisional value of dispute

GROUND FOR THE ORDER

The Court considers the Claimant's estimated value of the infringement action (2 000 000 euros) manifestly too low, particularly since the alleged infringement concerns the Defendants' mobile or computing devices in all 18 UPC Contracting Member States. According to the Court's preliminary view the value of the infringement action should provisionally be set to an estimated value of 4 000 000 euros. The parties have submitted that they do not have any objections to the Court's provisional assessment.

Against this background the Claimant should be ordered to pay an additional value-based court fee in the amount of 17 200 euros (34 400 - 17 200 = 17 200).

ORDER

1. The provisional value of the infringement action is set to 4 000 000 euros.
2. The Claimant is ordered to pay an additional value-based court fee in the amount of 17 200 euros.
